### View Station Data Help

View Station Data is a web based interface which allows easy access to NCDC's station databases. Data coverage is stored based on observations over a specific period of time whether annually, monthly, or daily. The date range changes based on the selected dataset.

Select the date range to choose a time period. Then click on the "VIEW DATA" button. If you find that you need more guidance, contact our [customer support team](#) (<https://www.ncdc.noaa.gov/www.ncdc.noaa.gov/support>).

<sup>1</sup> Dates are in standard ISO format (yyyy-mm-dd)

<sup>2</sup> Coverage is an approximation of total completeness based on the most complete data element, and the overall data range.
